To: Hiring Team

Company: AIOS

Dear Hiring Manager, I am excited to apply for the Product Designer position at AIOS. With over 5 years of experience in UI/UX design and product strategy, I am confident in my ability to deliver successful projects that drive real business results. My experience in designing end-to-end digital products, including an 8-platform UK Government digital transformation initiative, has equipped me with the skills to handle complex projects and collaborate with clients to deliver high-quality solutions. I am particularly drawn to AIOS's commitment to innovation and customer satisfaction, and I am excited about the opportunity to contribute my skills and experience to the team. In my current role at GYB Commerce, I have had the opportunity to work on a wide range of projects, from eCommerce UX and conversion systems to enterprise SaaS and government platforms. I am confident that my expertise in these areas, combined with my experience in AI-augmented design workflows and developer handoff, make me a strong fit for this role. I would welcome the opportunity to discuss my application and how my skills and experience align with the requirements of the position. Thank you for considering my application. I look forward to the opportunity to discuss this further.
