To: Hiring Team

Company: Crossing Hurdles

Dear Hiring Manager,

I am excited to apply for the Product Designer (UX/UI) position at Crossing Hurdles. With over 5 years of experience in UI/UX design and product strategy, I am confident in my ability to deliver UX structures, conversion systems, and product logic that drive real business results.

As a Senior Product Designer at GYB Commerce, I have had the opportunity to work on various projects, including an 8-platform UK Government digital transformation initiative. I successfully managed the project from discovery to developer handoff, using AI-augmented workflows to ensure efficient and effective design solutions.

In addition to my experience, I possess a strong skill set in UI/UX design, eCommerce UX, and brand identity systems. I am well-versed in design tools such as Figma, Adobe Photoshop, and Webflow, and I am always looking to expand my skill set and stay up-to-date with the latest design trends and technologies.

I am particularly drawn to this role at Crossing Hurdles because of the company's commitment to delivering high-quality products and services. I am excited about the opportunity to work with a talented team of professionals who share my passion for design and innovation.

Thank you for considering my application. I would welcome the opportunity to discuss my qualifications further and explain in greater detail why I am the ideal candidate for this role.

Sincerely,

Huzaifa Naeem
