Dear Hiring Manager, I am excited to apply for the UI/UX Designer - AI Products position at Hire Feed. With 5+ years of experience in UI/UX design and a strong background in brand identity and graphic design, I am confident in my ability to deliver high-quality designs that drive real business results. My experience as a Senior Product Designer at GYB Commerce has given me a unique understanding of the importance of end-to-end digital product design, and I am well-versed in using AI-augmented workflows to streamline design processes. I am particularly drawn to this role at Hire Feed because of the opportunity to work on AI-powered products and contribute to the development of innovative solutions. In my current role, I have had the opportunity to work on a wide range of projects, including an 8-platform UK Government digital transformation initiative and an AI-powered SaaS platform. I am excited about the prospect of bringing my skills and experience to a new challenge and contributing to the success of Hire Feed. Thank you for considering my application. I would welcome the opportunity to discuss my qualifications further and explain in greater detail why I am the ideal candidate for this role. Sincerely, Huzaifa Naeem
